Notice to residents

TURCOT

LONG-TERM CLOSURE OF RUE SAINT-RÉMI

From February 28th until the end of summer 2016, rue Saint-Rémi will be closed to traffic between rues Notre-Dame Ouest and Saint-Jacques.

This hindrance is necessary for the construction of the future route 136 overpass (now autoroute 720), spanning rue Saint-Rémi, in addition to complete the redevelopment of rues Saint-Rémi, Saint-Jacques and Pullman intersection.

Traffic hindrance

Closure of rue Saint-Rémi between rues Notre-Dame-Ouest and Saint-Jacques, with **local traffic maintained** between rues Notre-Dame Ouest and Cazelais.

Detours

Detours will be indicated with road signs on the local network. Pedestrians can detour on rues Desnoyers and Cazelais.

Mitigation Measures

The Ministère is aware of the inconveniences related to this work and mitigation measures will be in place to ensure the project progress is efficient. These measures include:

- Presence of a flagman the first days of the closure at the intersection of Saint-Rémi and Acorn to facilitate local traffic.
- Police presence during rush hour, and for the first days, at the busiest intersections.
- Installation of a road sign to indicate a mandatory right turn at the exit of the construction site on rue Saint-Rémi.
- Reprogramming of eight traffic lights to improve fluidity.
- Implementation of variable message sign.
