

## CONSTRUCTION OF A DETOUR ROAD OF AUTOROUTE 720

**March 11, 2016** – Vibration may occur during work in your area between March 16 and mid-April, 2016. Work includes the construction of foundations for the temporary detour road of autoroute 720.

A team on site will monitor vibrations to ensure that the authorized levels are respected.

**Starting from March 16, 2016  
until mid-April, 2016**

Vibration may occur during work

-  Work area
-  Temporary noise barrier

As part of the Turcot Project, the autoroute 720 will be rebuilt between Turcot Interchange and avenue Atwater, in addition to become a national road, route 136. The construction of this detour road is required to maintain traffic flow in this sector during the dismantling of autoroute 720, which will start later this year.

### Work Schedule

Work will be carried out mainly during daytime, from Monday to Friday, from 7 am to 7 pm. Some work may be carried out at night or during the week-end.
