

CONSTRUCTION OF ROUTE 136 – NIGHT WORK

May 25, 2016 - The ministère des Transports, de la Mobilité durable et de l'Électrification des transports would like to inform the public that starting from May 26, 2016, work will be carried out at night and on the weekend in your area. Some noise levels higher than usual may occur.

From May 26 to end of July, 2016

Construction of new structures of route 136 and a temporary detour.

Work Schedule

During this period, work will be carried out 24/7.

Work will be ongoing beyond the end of July, 2016 and mainly during the day, between 6 am and 7 pm.

Mitigation Measures

The Ministère is aware of the inconveniences that this work may cause, but the public is assured that all measures are being implemented to complete it as efficiently as possible. These measures include:

- Setting up noise mitigation measures on some equipment, e.g. interdiction of slamming doors of dump trucks, lowering backup alarm volume);
- Installation of a temporary noise barrier on the south side of autoroute 720 (as shown above);
- Noise and vibration monitoring by teams onsite;
- Restricting work carried out at night that may cause higher vibration and noise levels.
