

## DISMANTLING AND RECONSTRUCTION OF THE OVERPASS SAINT-JACQUES

**June 23, 2016** – The ministère des Transports, de la Mobilité durable et de l'Électrification des transports will carry out the dismantling of the overpass of rue Saint-Jacques during July 2016. Noise levels higher than usual may occur during certain operations and major hindrances are necessary on the highway network.

### Work Schedule

- Weekend of June 25, from Saturday night to Monday morning – Preparatory work
- Weekends of July 9 and July 16, from Friday night to Monday morning – Overpass dismantling
- Weekend of July 23 – Backup depending on the work progress
- Two weekends this fall – Completion of the overpass dismantling

### Mitigation Measures

The Ministère is aware of the inconveniences that this work may cause, but the public is assured that all measures are being implemented to complete it as efficiently as possible. These measures include:

- Continuous water spreading during dismantling to limit dust emission and dispersion
- Noise monitoring by the environment quality team

### Traffic Hindrances

Major hindrances will be put in place on the highway network during the weekends of **July 9 and July 16**. The autoroute 15 will be **completely closed to traffic** between the Turcot interchange and rue Sherbrooke Ouest.

For more information on hindrances and dismantling work, visit [www.turcot.gouv.qc.ca](http://www.turcot.gouv.qc.ca).
