

Notice to residents

The ministère des Transports, de la Mobilité durable et de l'Électrification des transports wishes to inform you that **excavation and dismantling work of the A-720 westbound** will be carried out at night, from May 22 to 25, 2018.

This work may be audible from your home.

Work Description

Excavation and dismantling work of A-720 westbound foundations.

Sound Climate

Due to the nature of the operations to be carried out, and constraints limiting the mitigation measures that can be implemented, including the proximity of railway structures and the limited space in the area, the allowed noise levels at night during this period will exceed the normally allowed thresholds. **They could reach up to 80 dB.**

Mitigation Measures

- Installation of temporary acoustic panels
- Use less noisy back-up alarms on certain equipment used at night
- Noise monitoring by the team on site

Turcot Neighbourhood Committee

A neighbourhood committee, open to the public, has been implemented in your area. By attending these meetings, you can find out more about the upcoming work, and ask questions.

Next meeting: **Monday, June 4, 2018 at 7 p.m.**
75, rue du Square-Sir-George-Étienne-Cartier, Montréal
