

Notice to residents

The ministère des Transports, de la Mobilité durable et de l'Électrification des transports wishes to inform you that **daytime operations resulting in very high noise levels will be carried out from mid-July to mid-August in your area.**

Work Description

Treatment of the retaining wall with sandblast to apply a coating to facilitate the cleaning of graffiti.

Sound Climate

Due to the nature of the operations to be carried out, the equipment required and the constraints limiting the mitigation measures that can be implemented, the noise levels permitted for these operations will exceed the thresholds normally allowed. **They could reach up to 90 dB, from 7 a.m. to 7 p.m.**

Mitigation Measures

The Ministère is aware of the inconveniences this work may cause, that is why every effort is being made to reduce the impacts on the residents, particularly:

- Maintaining temporary noise barriers
- Installation of acoustic panels around certain fixed equipment
- Noise monitoring by the team on site

Turcot Neighbourhood Committee

A neighbourhood committee, open to the public, has been implemented in your area. By attending these meetings, you can find out more about the upcoming work, and ask questions.

Next meeting: **Wednesday, August 29, 2018 at 7 p.m.**
75, rue du Square-Sir-George-Étienne-Cartier, Montréal
