

# Notice to residents

The ministère des Transports wishes to inform you that **night operations** for the installation of a permanent noise barrier **will be carried out from February 3 to mid-February 2020** in your area. This work could result in **higher noise levels than usual.**

## Work Schedule

9 p.m. to 6 a.m.  
from February 3 to mid-February\*

\*Other operations outside this time slots

## Mitigation Measures

The Ministère is aware of the inconveniences this work may cause. Therefore, all the measures are put in place to ensure that the work is carried out as efficiently as possible, particularly:

- Setting up of noise attenuation measures on some equipments (e.g.: ban on slamming the doors of dump trucks, using low-noise backup alarms, etc.)
- Noise and vibrations monitoring by the team on site

## Sound Environment

Due to the nature of the operations to be carried out, the equipment required and the area constraints, the noise levels permitted for these operations could exceed the thresholds normally allowed.
